HAPPENINGS

It is no secret how vital it has become for training and player development to begin at an early age in this competitive era of sports that we live. One of the biggest advantages I have seen during my two years in NW Arkansas is the understanding of this notion and the decision that many local schools have made to adopt this philosophy. For our Coaching Staff to be able to teach our 7th Grade players the same concepts that our HS players utilize is invaluable. Shiloh offers and provides 4th, 5th, and 6th grade feeder programs as well and the return on that investment is showing up more and more! We are so thankful for our volunteer coaches that make this possible! In an effort to better equip our young players for future success, we've partnered with **Launch Hoops** this season to provide skill training for our Youth League participants. We are grateful for this partnership this year!
